GENERAL INTRODUCTION

This report provides insight into the most important developments in the previous reporting period. For more or other information, please refer to the previous reports.

The reporting on the four bankruptcies has been consolidated, however the actual winding up will be carried out per company.

The reporting in these bankruptcies has been prepared in accordance with the Recofa Guidelines for Bankruptcies and Suspensions of Payments. However, the model known as “Standard Financial Report”, which was developed by the Winding Up of Bankruptcies Working Group 2011, was chosen for the processing of the financial data in an Interim Financial Report.

Only those reports which are printed on letter paper of Van Benthem & Keulen N.V. in Utrecht or Fort Advocaten N.V. in Amsterdam and bear a signature of both Receivers are authentic.

The Receivers have tried to compile this report with the greatest possible care but they do not vouch for the completeness or accuracy of all information contained in this report; in any case no rights may be derived from the information provided in this report. It is possible that further investigation will produce new or other facts or lead to different opinions or conclusions.
